1. The following is an examiner's statement of reasons for allowance: the prior art of record teaches an electrode arrangement including multiple sets of electrodes placed in different planes where all of the electrodes are rotated about the longitudinal axis but does not teach movement of one set of electrodes relative to another set of electrodes. Therefore the prior art of record does not teach in combination with the other limitations of the claim, the electrode movement, where one set of electrodes is rotatable around the longitudinal axis relative to the other sets of electrodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
